

Canada
Royal Arts
HIGH SCHOOL

Short Description:

Canada Royal Arts High School is located in the heart of Vancouver, parallel to West Broadway Street. We are an arts-based, hands-on, creative high school in Vancouver offering grades 08 to 12.

Long Description:

We are an arts-based, hands-on, creative high school in Vancouver offering grades 08 to 12. Academically, we have already established a record of excellence in getting students admitted to some of the best arts universities in North America. This is why we believe in the power of creativity: by allowing students to become dreamers and visionaries, our method has lasting benefits beyond school years developing personality, self-esteem and self-expression skills, also improving cognition and communication.

Mission Statement:

Because of industrial educational systems, people are being taught out of their creative capacities. Our Mission is to inspire students, their families and our community into sensitive practices that allows us to reimagine the future together – developing academic skills but also self-expression, communication, hands-on creativity, respect for diversity, critical thinking and emotional intelligence.

Vision Statement:

The future will not be for those who only memorize and take notes – but for those who make the rules, break the patterns and trust their feelings. Our Vision is to be a visionary arts-based school that allows students to live in a respectful, artistic and creative environment where they are not afraid to be themselves, to express their thoughts and to master their talents. Academically, our goal is to have every single student accepted by their dream university, especially in creative fields such as Arts, Design, Architecture, Science and Engineering.
